**Under Insurance:**

If the property covered thereby shall at the time of loss be collectively of greater value (in the country of destination) than such Sum Insured, then the Insured shall be considered as being his own Insurer for the difference and shall bear a rateable share of the loss accordingly.

**Basis of Settlement:**

The replacement value will be based on the Liv-ex Market Price at the time of loss. If the Liv-ex Market Price is more than 12 months old, the replacement value may be based on any other Market Data or Benchmark to evidence the value, but such data shall not extend to privately invoiced sales and the onus will be on the insured to evidence such data. If the Liv-ex Market Price is more than 12 months old and there is no other Market Data available, the last invoiced value for the product should be used. There will be a maximum additional uplift of 10% to accommodate market increases between the time of loss and the time of obtaining a replacement.

If both the Liv-ex Market Price and the invoiced value are more than 12 months old, or unavailable, the insured, can at its discretion, refer to the Liv-ex Valuation Committee for a more up to date value. In the event that Liv-ex is the insured a value will be sought from three independent merchants and the claim settled at the average value provided.

And...

The Basis of Valuation clause in this policy shall be amended for wines &/or spirits in storage to allow a maximum additional uplift of 50% to accommodate market increases between the time of loss and time of obtaining a replacement, provided that:
